Office of the Fire Marshal

21 May 2019

Mobile Food Preparation Vehicles:

With the adoption of the 2018 International Fire Code by the City of Fruita and the Fire District Section 319 of the fire code will become effective July 1, 2020. (Note; The City of Grand Junction also adopted the same code and effective date.)

Mobile food preparation vehicles that are equipped with appliances that produce smoke or grease-laden vapors shall comply with this section.

Exhaust hood. Cooking equipment that produces grease-laden vapors shall be provided with a kitchen exhaust hood complying with Section 607.

Fire protection for cooking equipment. Cooking equipment shall be protected by automatic fire extinguishing systems in accordance with Section 904.12

The complete fire code requirements are too detailed to list here. If you have questions, contact the fire department for access to the fire code.

R. W. Pippenger
Fire Marshal
